As a very satisfied customer of XM Satellite Radio, I urge you to reject petition 04-160. This bill would restrict XM Satellite Radio from offering traffic and weather and other valuable services to its listeners.

Instead of competing and improving their services, the National Association of Broadcasters (NAB), the organization that represents the large radio and television owners, wants the government to protect their businesses by attacking satellite radio.

Please support the free market and reject petition 04-160.

Sincerely,

Macon Gravlee
